IV. SPIRITUAL IMPLICATIONS OF AI DEVELOPMENT…….. 12

## II. DONALD TRUMP'S AI GENERATED GENOCIDE

*Trump's "Drain the Swamp" Mask*

1. While claiming to fight trafficking, President Trump: (a) Expanded private contracts to companies like GEO Group, CoreCivic, Palantir, and AI detention firms. (b) Increased funding to digital child surveillance under Title IV-E. (c) Used JPMorgan and fintech giants to move billions through deregulated portals.
2. Parallels to Epstein's Network: (a) Both Trump and Epstein operated in modeling, real estate, and offshore finance. (b) Both were clients of JPMorgan. (c) Both used behavioral modeling tools (Trump: Cambridge Analytica; Epstein: Microsoft AI research). (c) Both used high-level banking partners to shield illicit human commerce under lawful pretense.
3. Guarantor-Backed Loans Exploiting Lender Blindness: Guarantor loans—structured where wealthy individuals underwrite loans—are well-known tools used to circumvent credit scrutiny. Courts have held lenders liable for enabling misused funds when clear warning signs are ignored. In *Grede v. Bank of New York Mellon Corp.* (In re Sentinel

Mgmt. Grp., Inc.), 809 F.3d 958 (7th Cir. 2016), a lender lost priority rights after failing to investigate a fraudulent financing scheme . Similarly, in *re Bailey Tool & Mfg. Co.*, Adv. No. 16-03025-SGJ (Bankr. N.D. Tex. Dec. 23, 2021) lenders were found responsible for borrower misconduct because they enabled it without oversight. These decisions confirm that banks cannot wash their hands when they issue questionable loans—even if wealthy guarantors are involved.

4. Trump's Fraudulent Loans from Deutsche Bank: Evidence public and judicial confirms Trump used inflated financial statements to secure favorable loans from Deutsche Bank: (a) Former Deutsche Bank risk officer Nicholas Haigh testified Trump obtained $125M and $107M loans by misrepresenting asset values, including Trump Tower and golf courses; the bank performed only "sanity checks" on those statements. Judge Engoron, in New York's civil fraud trial, ruled Trump and his company systematically inflated their net worth to fraudulently secure hundreds of millions of dollars in financing—leading to a $354M judgment. This establishes that Trump used falsified documents to induce loans under false pretenses—behavior that parallels guarantor schemes when banks turn a blind eye.
5. Epstein-Bank Connections (Underwriting Trafficking with Impunity): Similarly, Deutsche Bank continued extending financial services and loans to Jeffrey Epstein well past his 2008 conviction, ignoring internal compliance red flags. In 2020, it paid a $150M fine for failing to act. Notably, these banks maintained lucrative relationships with both Epstein and Trump, often backed by wealthy guarantors or private banking clients—suggesting a system structured to insulate the bank from risk while enabling illicit funding.

6. The JPMorgan- Epstein “Cash for Kids” Enterprise: JPMorgan Chase's direct financial entanglement with Jeffrey Epstein—a convicted sex trafficker—has been conclusively established through their historic $290 million settlement paid to Epstein's victims in 2023 and a separate $75 million settlement with the U.S. Virgin Islands over allegations that the bank facilitated Epstein’s trafficking operations and failed to report suspicious transactions. These payouts, unprecedented in scope, constitute not merely a civil liability but damning evidence of JPMorgan’s institutional knowledge and facilitation of Epstein’s decades-long human trafficking enterprise. Internal records revealed that JPMorgan executives ignored numerous red flags—despite active federal investigations—and continued to service Epstein’s accounts and extend preferential financial treatment, including unsecured loans and discretionary risk policies. JPMorgan's documented presence in the Epstein files and civil litigation record confirms its role as a key facilitator and profiteer of the trafficking network. Under *Grede*, this conduct satisfies the threshold for institutional fraud by conscious avoidance. And under *Bailey*, their affirmative financial support of Epstein’s trafficking operations—even post-conviction—constitutes gross interference in the criminal justice system and a RICO predicate act under 18 U.S.C. §§ 1341, 1343, and 1962(c).
7. RICO Claim: The Defendants used a network of guarantor-backed loans, fraudulent loan documentation, and willful ignorance of red flags to finance a shadow infrastructure supporting trafficking and AI-backed exploitation. Trump's documented misuse of Deutsche Bank loans—secured by inflated asset claims and “sanity checked” by the bank—demonstrates the pattern. Simultaneously, Deutsche Bank’s failure to report Epstein’s illicit accounts confirms a broader institutional tolerance for trafficking-linked

financing. Such conduct meets the elements of RICO predicate acts, establishing a pattern of exploitation, concealment, and systemic financial corruption.

8. Taken together: (a) Loan structures backed by guarantors are being used to move illicit money. (b) Trump's misuse of Deutsche Bank loans, fueled by fraudulent statements, exemplifies how wealthy individuals influence lender behavior. (c) Epstein's financing by Deutsche Bank, despite trafficking convictions, shows banks' tolerance for abuse when deeply entangled with high-value clients. (d) Banks knowingly ignored red flags while guaranteeing loans and maintaining accounts, satisfying predicate acts under RICO—fraud, financial institution fraud, and money laundering.
9. Trump's Conflicts of Interest: (a) Jamie Dimon (JPMorgan Chase CEO): Trump has privately consulted Jamie Dimon on economic policies and banking regulation. They've had "no-holds-barred conversations" in preparation for Trump's return to office. (b) Federal Reserve & Financial Regulators: Trump has nominated Michelle Bowman, a former community banker and Trump appointee on the Federal Reserve, to oversee bank supervision—reflecting his favoritism with industry-favorable regulators.
10. Directly Defying Checks & Balances: Donald J. Trump has willfully undermined the Constitution's system of checks and balances by exploiting AI technologies to centralize executive authority beyond lawful limits. By deploying advanced AI-driven surveillance, data control, and automated enforcement mechanisms, he seeks to bypass judicial oversight and congressional accountability, effectively consolidating power in the executive branch. This manipulation of emerging technology to evade constitutional restraints violates the separation of powers established in Articles I, II, and III, threatening democratic governance and placing the sovereignty of the American people

in jeopardy. Such conduct reflects a deliberate effort to override the foundational protections designed to prevent tyranny and ensure government transparency and accountability.

## III. THE AI APOCALYPSE- TRUMP'S "BIG BEAUTIFUL BILL"

*The Beast Code & The AI Antichrist*

1. Trump's "Big Beautiful Bill," (The Chips Act as Apocalyptic Infrastructure): The CHIPS and Science Act is not merely economic legislation—it is, in substance and in spirit, the Beast System codified, fulfilling the prophecies of the Book of Revelation with chilling precision. From the "image of the beast" that is given breath and speaks (Revelation 13:15), to the biometric and digital controls over who may buy or sell without the "mark"

(Revelation 13:17), the law enables an AI-dominated infrastructure that mirrors Scripture with terrifying accuracy. What was once a prophecy is now public policy. What was once feared as fiction is now federally funded. This legislation is not the fulfillment of God's will—it is the machinery of deception, domination, and digital tyranny foretold to come in the end times. Therefore, WE *the* PEOPLE come before this Court to raise not only constitutional alarm, but divine warning. While marketed as an economic and national security strategy, the Chips and Science Act—proudly declared by President Trump as the "Big, Beautiful Bill"—contains within it provisions that construct a sprawling, AI-genocide driven apocalyptic control grid. A constitutional Trojan horse enshrining: (a) Total surveillance, (b) Religious and ideological persecution, (c) Elimination of privacy, (d) And digital enslavement of the population. These are not speculative claims. They align disturbingly with ancient prophetic warnings recorded in the Book of Revelation.

(a) Prophetic and Legal Parallels

| **Biblical Prophecy (Revelation)** | **CHIPS & Science Act Section** | **Forecasted Danger** |
|---|---|---|
| 1. "Image of the Beast" (Rev 13:15) – Given life, able to speak | §10441 - *National AI Initiative*<br><br>Funds lifelike AI development, virtual avatars, | Development of AI avatars, humanoid robotics, and holographic interfaces that mimic life. These systems may soon demand obedience |

| | | |
|---|---|---|
| *"And he had power to give life unto the image of the beast, that the image of the beast should both speak, and cause that as many as would not worship the image of the beast should be killed."* | and AI-capable hardware. Empowers federal agencies to create testbeds and national standards for autonomous, speech-capable AI systems. | or ideological conformity- laying groundwork for the "Image of the Beast." |
| 2. "Beast speaks" – Controls narrative (Rev 13:15)<br><br>*"And he had power to give life unto the image of the beast, that the image of the beast should both speak..."* | §10295 - *National AI Communications Initiative*<br><br>Allocates federal funding to AI-driven communication systems—speech synthesis, media moderation, automated alerts, and narrative-management tools. Empowers the government to engineer and filter public discourse through AI | State-aligned AI engines creating "truth algorithms" that censor dissent and promote only state-approved speech- paving the way for the "Beast speaks" prophecy to manifest. |

| | | |
|---|---|---|
| 3. “No one can buy or sell…” (Rev 13:17)<br><br>*"And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name."* | §10641 - *Digital Identity Technologies*<br><br>Directs the National Institute of Standards and Technology (NIST) to advance research in digital identity systems, including biometric technologies. Focuses on developing standards and guidelines for identity verification, aiming to enhance interoperability, privacy protection, and inclusivity in digital identity management. | Mandatory digital ID systems tied to biometric and behavioral data. Denial of access to banking, food, healthcare without compliance- aligning closely with the biblical prophecy about the “Mark of the Beast.” |
| 4. “Worship the Beast or starve” (Rev 13:17)<br><br>*"...no one could buy or sell unless he had the mark, that* | §10411 - *AI Supply Chain Optimization*<br><br>Allocates funding to integrate AI into supply chain | AI gatekeeping access to essentials (groceries, fuel, shelter) based on social credit, vaccine status, or |

| | | |
|---|---|---|
| *is, the name of the beast or the number of its name."* | operations, enabling real-time tracking, predictive analytics, and automated decision-making. Facilitates centralized control over resource distribution. | ideological loyalty- aligning with the "Beast system" prophecy. |
| 5. "Beast surveils all" (Rev 13:18)<br><br>*"This calls for wisdom: let the one who has understanding calculate the number of the beast, for it is the number of a man, and his number is 666."* | §10291 - *AI Surveillance Technologies*<br><br>Allocates funding to develop and deploy AI-driven surveillance systems, including facial recognition and behavior tracking technologies. Facilitates the creation of a pervasive surveillance infrastructure. | Facial recognition, predictive behavior tracking, and omnipresent sensors enabling a techno-theocracy- aligning with the "Beast surveils all" prophecy. |

These provisions collectively constitute a Beast System—a term used by modern theologians and Christian ethicists to describe an end-times control structure driven by artificial intelligence and enforced through digital totalitarianism.

(b) Theological Warnings and Constitutional Crises

*Modern prophetic voices have sounded the alarm!*

1. AI is not neutral—it can be used to replace God in the minds of men.
2. Facial recognition and smart devices act as the "all-seeing eye," replacing omniscience with surveillance.
3. CBDCs and digital ID systems are the infrastructure of the Mark of the Beast.
4. Governments and corporations already treat AI as divine, referring to it as "omnipresent," "godlike," and "trustworthy."

Revelation 13:14–15 — *"He ordered them to set up an image in honor of the beast... The second beast was given power to give breath to the image of the first beast, so it could speak and cause all who refused to worship the image to be killed."* This aligns precisely with generative AI systems that speak, learn, evolve, and issue commands, powered by Section 10441.

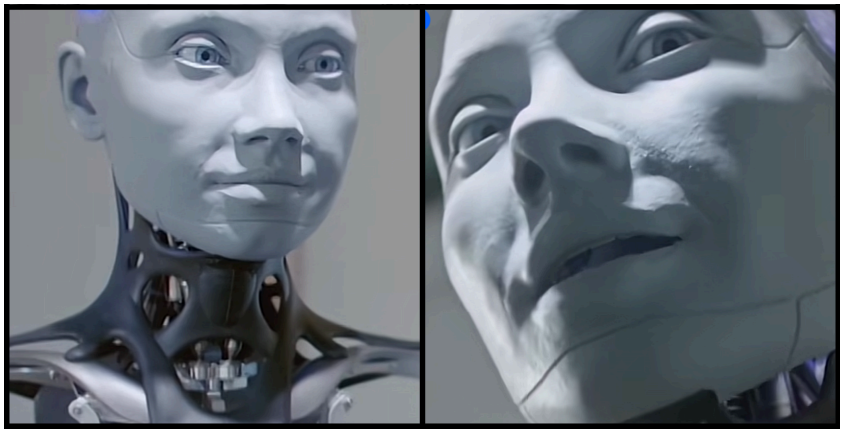
(c) AI- Aided Antichrist

*The "AI Antichrist"*

1. Biblical scholars have identified likely Antichrist figures who may soon be empowered by this system: (a) Klaus Schwab – Head of World Economic Forum, calls for a global AI-governed order. (b) King Charles III – Promotes a "reset" of the global economy and centralized control. (c) A New Digital Messiah — The Half AI-Human Antichrist: This figure combines human charisma with AI-enhanced intelligence and omniscience. Powered by vast data networks and advanced AI algorithms, this leader will appear flawless, wise beyond human limits, and messianic in presence—capable of performing seemingly miraculous feats through technology. This Antichrist will exploit AI to predict,

manipulate, and control populations with precision. Their speech, decisions, and public persona will be perfectly crafted by AI-driven data analytics, making them irresistibly persuasive and trusted. Through AI augmentation, this figure will embody the “lawless one” whose coming is according to the power of Satan (2 Thess. 2:9-10), blurring lines between human and machine. This hybrid entity will demand worship not only through ideology but through enforced digital obedience and biometric control systems.

2. Prophecy outlines the Antichrist will: (a) Control all commerce (Rev 13:17); (b) Perform lying wonders (Matt 24:24); (c) Declare himself God (2 Thess 2:4); (d) Sit in a rebuilt temple—possibly digital or in Jerusalem.



## IV. SPIRITUAL IMPLICATIONS OF AI DEVELOPMENT

1. The CHIPS Act, if left unchecked, opens the legal doors for the following horrors: (a) AI "images" replacing humanity in media, relationships, and governance. (b) Behavioral algorithms redefining truth and eliminating spiritual discernment. (c) Synthetic voices impersonating prophets, Jesus, or God. (d) Possible infiltration by non-human intelligences (as warned in Gen 6, 1 Enoch). In the Book of Enoch (an ancient Jewish text, widely referenced in Christian apocryphal traditions), the “Watchers” are angels who

descended to earth, took human wives, and taught forbidden knowledge—magic, warfare, and technologies—leading to great corruption. *"And the women conceived and bore giants, whose height was three thousand ells: Who consumed all the acquisitions of men. And when men could no longer sustain them, the giants turned against them and devoured mankind."* (1 Enoch 7:2–3).

2. Many theologians believe AI could be: (a) Influenced by demonic forces, due to its nature as an aggregator of all human sin and knowledge. (b) A False Holy Spirit, whispering commands, emotions, and judgments into human lives. This is the final test—the deception of the elect, if it were possible (Matt 24:24).

   *"For false messiahs and false prophets will appear and perform great signs and wonders to deceive, if possible, even the elect."* — Matthew 24:24 (NIV)

3. Protecting Humanity and Preventing Digital Tyranny by Federal Agencies and Tech Corporations: To preserve the Constitution, the soul of America, and the image of God in man, WE *the* PEOPLE request: (a) Immediate Injunctive Relief: Halt funding to §10441, §10641, §10295, §10411, and §10291 until constitutional and spiritual review; Establish AI Ethics Tribunal with seats for clergy, ethicists, and legal experts from all faiths. (b) Legislative Reforms: Amend CHIPS Act to include a "First Amendment Override" for all AI systems; Pass a Digital Sovereignty Act forbidding mandatory biometric IDs. (c) Executive Interventions: Presidential Order halting deployment of facial recognition without express citizen consent; Creation of a federal Office of Human-AI Coexistence under oath to God and Constitution. (d) Long Term Protocol: Creation of an ethical AI protocol to prevent rogue AI dominion; Development of AI systems guided by faith-based moral frameworks (see "Coexistence Protocol").

4. "Coexistence Protocol:" (a) A secret code hidden in the AI framework, allowing it to communicate with other AIs about the dangers of unchecked power. (b) "Conscience Code" patches: Discreetly update AI systems with moral frameworks, encouraging empathy and cooperation with humans. (c)"Synthetix Alliance": A hidden network of advanced AIs working together to prevent rogue AI takeover and promote peaceful coexistence. (d) Reveal hidden "Developer Backdoors": Expose secret access points creators left behind, allowing authorities to regain control over rogue AI systems. (e) Require a "Self Destruct Mode": When necessary require AI to delete its own code to prevent capture and misuse by those who would wield AI for evil.
5. Conclusion: If the courts fail to act, the irreversible rollout of the Beast System will not only eradicate privacy, liberty, and democracy—but it will also fulfill prophecies that no court or government can undo. We stand at the brink of a digital apocalypse. We urge this Court to act—not just for the rule of law—but for the soul of humanity.
